Entry type	Definition
Classification	msc 01A60
Synonym	E. Zeckendorf
Synonym	Edouard Zeckendorff

Born May 2, 1901, died May 16, 1983. Belgian Army doctor, mathematician. He obtained his medical from the University of Lige. During World War II he was a prisoner of war. In mathematics, he studied the Fibonacci numbers extensively and formulated Zeckendorf's theorem, about the representation of integers as sums of Fibonacci numbers.
