*Fan Chung Graham* (1949 - ) Chinese American mathematician, author and educator specializing in graph theory, the third wife of computer theorist Ronald Graham, and one of the most prolific Erdős collaborators, co-author with him of 14 papers, primarily dealing with graphs. After earning a doctorate from the University of Pennsylvania in 1974 with Herbert Wilf as her advisor, Chung went on to teach at the University of California-San Diego, where she is now Akamai Professor in Internet Mathematics.
